# Homework 3: Dataset Finding

## Research Paper Homework Instructions:

Complete 5 research papers summaries by answering the following questions:

- The central research question (what are they studying?)
- The context of the study (where is the study taking place?)
- What type of data is being studied?
- What do the authors find?

Add your summaries to your working overleaf paper linked [HERE](#) (Aley's Paper).

Find a dataset you are interested in through here:

- <https://www.kaggle.com/datasets>
- <https://huggingface.co/datasets>
- <https://paperswithcode.com/>

Examine the following datasets to see if you are interested in either one:

- <https://www.kaggle.com/datasets/melissamonfared/mental-health-counseling-conversations-k>
- <https://www.kaggle.com/datasets/cid007/mental-disorder-classification>

Translate important keywords into English from your study.

Look for ways how scholars have coded various counseling behaviors in the past.

## Python Programming Instructions:

Additionally please run through the class's python notebooks through this folder:
